

caster wheel

Basic Information

Product Specification

Product Description

caster wheel

Product Details

Product Description:

Product Name	Caster Wheel
Brand Name	Bythai
Size	8 inch
Material	Polyurethane and Steel Wheel
Surface Treatment	Black
Weight	5.2 kg
Loading Capacity	1200kg at rest and 500kg under dynamic conditions.
Packing	Carton or as your requirement.
Application	Mobile scaffolding castor with brake is designed to work with exterior scaffold units. Easy movement across concrete and other smooth and solid surfaces. A big help when you don't have time to tear down and rebuild the scaffold. Deep toothed gears for firm rotational lock. Extra cam lock lever for ease of positive down locking. Brake arm integral with fork legs, no welds.
