Product Description

Product Description:

Scaffolding Coupler is specially designed and manufactured to join scaffolding tubes together. It is made of high-strength steel and has been galvanized for a better corrosion resistance. This coupler meets the requirements of EN74-1 and is available in 48mm size. It is commonly used in scaffolding structures, such as putlog scaffolding and bs1139 scaffolding, and it is also suitable for scaffolding sleeve and fixing. With its high strength and corrosion resistance, Scaffolding Coupler is an ideal product for both outdoor and indoor scaffolding applications.

Features:

Product Name: Scaffolding Coupler
Color: Silver
Application: Construction
Package: Carton Box
Surface Treatment: Galvanized
Feature: High Strength
Special Feature: British coupler, tube and coupler scaffold, scaffolding joint coupler, scaffold coupler

Technical Parameters:

Attribute	Description
Name	Scaffolding Coupler
MOQ	1000pcs
Feature	High Strength
