

Galvanized Steel Plank For Scaffolding With BS12811 Steel Plank

Our Product Introduction

for more products please visit us on bythaiscaffold.com

Basic Information

- Place of Origin: China
- Brand Name: Bythai
- Minimum Order Quantity: 1000
- Price: 4.5-8.5
- Delivery Time: 10-15
- Payment Terms: container, shipping

Product Specification

- Surface: Pre-galvanized/hot Dip Galvanized/Spray Plastic
- Material: Steel
- Packaging: Container
- Length: Customized
- Place Of Shipment: China
- Usage: Scaffolding
- Highlight: **Scaffolding Galvanized Steel Plank,
BS12811 Galvanized Steel Plank,
BS12811 Scaffolding Plank**

Product Description

Product Description:

Scaffolding Plank - The Ultimate Support for Your Construction Needs

Scaffolding Plank is a high-quality product designed to provide the ultimate support for your construction projects. Made from superior quality steel, our scaffold plank is durable, reliable and able to withstand heavy loads. It is the perfect solution for all your scaffolding needs.

Place of Shipment

Our Scaffolding Plank is proudly manufactured in China, a country known for its advanced steel production techniques and high-quality products. This ensures that our customers receive the best possible product at a competitive price.

Length Customization

We understand that every construction project has unique requirements, which is why our steel scaffold plank is available in customized lengths. This allows you to choose the perfect size for your specific needs, making your construction process more efficient and convenient.

Packaging

To ensure the safe transportation of our product, we use containers for packaging. This not only protects the scaffold plank from any damage during shipment, but also allows for easy handling and storage.

Material

Our Scaffolding Plank is made from high-quality, galvanized steel, which is known for its strength, durability and resistance to rust and corrosion. This makes our scaffold plank highly durable and suitable for use in different weather conditions.

Usage

Our steel plank ringlock is specifically designed for scaffolding purposes. It provides a stable and secure platform for workers to perform their tasks at various heights. It is also commonly used for access and support during building maintenance, renovation and repair work.

Scaffold Board

Scaffold Board is a term used to describe our galvanized steel scaffolding plank. It is a versatile and essential component of any scaffolding system, providing a strong and stable working surface for construction workers. Our scaffold board is easy to install and can be used in various types of scaffolding structures.

Choose Scaffolding Plank for your next construction project and experience the ultimate support and convenience for your scaffolding needs. Contact us today to learn more about our product and to place your order.

Features:

Product Name: Scaffolding Plank

Length: Customized

Place of Shipment: China

Material: Steel

Usage: Scaffolding

Surface: Pre-galvanized/hot Dip Galvanized/Spray Plastic

Steel plank for support construction

Steel plank without hook

Steel deck plank

Technical Parameters:

Usage	Scaffolding
Material	Steel
Length	Customized
Packaging	Container
Surface	Pre-galvanized/hot Dip Galvanized/Spray Plastic
Place of shipment	China

Technical Parameters of Scaffolding Plank

Product Name	Steel Plank for Support Construction
Material	Galvanized Steel
Length	Customized
Packaging	Container
Surface	Pre-galvanized/hot Dip Galvanized/Spray Plastic
Place of Shipment	China

Key Features	1. Strong and durable 2. Easy to install and remove 3. Can be customized to fit different construction needs 4. Available in various surface treatments for different levels of corrosion resistance
Keywords	Galvanized Steel Plank, Pierced Steel Planking, Scaffolding Plank

Applications:

Scaffolding Plank - Perfect for Your Construction Needs

Brand Name: Bythai

Place of Origin: China

Minimum Order Quantity: 1000

Price: 4.5-8.5

Delivery Time: 10-15

Payment Terms: container, shipping

Surface: Pre-galvanized/hot Dip Galvanized/Spray Plastic

Packaging: Container

Usage: Scaffolding

Material: Steel

Length: Customized

Introduction

Scaffolding Plank, also known as steel plank, is an essential component for support construction in the scaffolding system. Made of high-quality steel, our steel planks are designed to provide safety, durability, and convenience for your construction needs.

Application

Our steel planks are perfect for construction sites, where safety and efficiency are crucial. They can be used for various purposes, such as supporting workers, tools, and building materials. With adjustable length, they can fit different types of scaffolding systems, making them versatile and suitable for any construction project.

Features

Heavy-duty steel construction for maximum load-bearing capacity

Available in pre-galvanized, hot dip galvanized, and spray plastic surface finishes for corrosion resistance

Customizable length to fit different scaffolding systems

Cost-effective solution for construction needs

Easy to install and dismantle

Durable and long-lasting

Benefits

Ensures safety and stability for workers on construction sites

Reduces the risk of accidents and injuries

Increases productivity and efficiency

Can withstand heavy loads and harsh weather conditions

Provides a stable platform for workers to perform their tasks

Can be reused for multiple construction projects

Why Choose Bythai Scaffolding Plank?

High-quality steel material for superior performance and durability

Strict quality control to ensure the safety and reliability of our products

Competitive prices to meet your budget and cost-saving needs

Customization options to fit your specific requirements

Prompt delivery within 10-15 days

Convenient payment terms of container and shipping

Conclusion

With Bythai Scaffolding Plank, you can trust that your construction site will be equipped with the best support and safety measures. Our high-quality steel planks, combined with our competitive prices and excellent service, make us the perfect choice for all your scaffolding needs. Contact us today to learn more and place your order!

Customization:

Bythai Scaffolding Plank Customized Service

Brand Name: Bythai

Place of Origin: China

Minimum Order Quantity: 1000

Price: 4.5-8.5

Delivery Time: 10-15

Payment Terms: Container, Shipping

Material: Steel

Usage: Scaffolding

Length: Customized

Packaging: Container

Surface: Pre-galvanized/hot Dip Galvanized/Spray Plastic

Scaffolding Plank is a crucial component in construction and maintenance work. Bythai, a leading brand in the industry, offers a wide range of galvanized steel planks that are durable, reliable, and cost-effective.

With our customized service, customers can order scaffolding platforms with specific lengths and surface treatments according to their project needs. Our galvanized steel planks are manufactured in China and meet international quality standards.

To place an order, a minimum quantity of 1000 pieces is required. Our prices range from 4.5-8.5 USD per piece, depending on the specifications and quantity ordered. Delivery time is estimated to be 10-15 days, and we accept container and shipping payments.

Bythai understands the importance of safety in scaffolding work. That's why our scaffolding planks are made of high-quality steel to ensure strength and stability. The pre-galvanized/hot dip galvanized/spray plastic surface treatment options provide excellent corrosion

resistance, making our planks suitable for both indoor and outdoor use.

Choose Bythai for all your scaffolding needs and experience our top-notch customized service. Contact us now to discuss your requirements and get a quote.

Packing and Shipping:

Scaffolding Plank Packaging and Shipping

Our Scaffolding Planks are carefully packaged and shipped to ensure safe delivery to our customers. Here is a breakdown of our packaging and shipping process:

Packaging:

Each Scaffolding Plank is individually wrapped in protective material to prevent scratches and dents during transportation.

Multiple planks are then stacked and secured together using sturdy straps or bands.

The entire bundle is then packed in a strong and durable wooden crate or pallet.

For international shipping, the crate or pallet is also wrapped in waterproof and weather-resistant material.

Shipping:

We offer both domestic and international shipping options for our Scaffolding Planks.

Domestic shipping is typically done through ground transportation services, such as trucks or trains, depending on the distance and location.

For international shipping, we work with reliable shipping companies to ensure timely and secure delivery.

Customers will be provided with a tracking number to monitor the status of their shipment.

Shipping costs and estimated delivery times will be provided at the time of purchase.

At Scaffolding Plank, we take great care in packaging and shipping our products to ensure they arrive in perfect condition. If you have any questions or concerns about our packaging and shipping process, please don't hesitate to contact us.
