Product Description

Product Description:

Frame System Scaffolding

Frame System Scaffolding is a versatile and efficient scaffolding solution designed and manufactured in China. Made with high-quality Q235 steel and available in a variety of sizes, this scaffolding is the perfect choice for any construction project.

With its steel/spray plastic color, it not only looks sleek and modern, but also provides added durability and rust resistance. The modular design of this scaffolding system allows for easy customization and assembly, making it suitable for a wide range of applications.

Key Features

Frame Upright: The main frame uprights of this scaffolding are made with Q235 steel, providing strength and stability to the entire structure.

Ladder Frame: The ladder frame design allows for easy climbing and access to different levels of the scaffolding, making it safer and more efficient.

Portal Frame Shoring System: This feature adds additional support and stability to the scaffolding, ensuring the safety of workers and the structure itself.

Scaffold Platform: The platform of this scaffolding is made with high-quality steel and can be adjusted to different heights, providing a stable and secure work surface.

Safety Lock: Equipped with safety locks, this scaffolding system offers added protection and prevents accidents or falls.

Rust Resistant: The steel/spray plastic color and Q235 steel material used in this scaffolding make it highly resistant to rust and corrosion, ensuring its durability and longevity.

Modular Design: This scaffolding can be easily assembled and disassembled, allowing for customization and versatility in different construction projects.

Shipping and Arrival

Our Frame System Scaffolding is shipped directly from China and arrives within 10-15 days. We ensure timely delivery and provide excellent customer service to assist with any inquiries or concerns.

Customization Options

We understand that every construction project is unique, which is why we offer customized sizes and designs for our scaffolding. Simply provide us with your specifications and we will create a scaffolding solution tailored to your needs.

Conclusion

Frame System Scaffolding is a reliable and efficient scaffolding solution that meets all your construction needs. With its sturdy Q235 steel material, rust resistance, and modular design, it offers a safe and convenient work platform for any project. Choose Frame System Scaffolding for your next construction project and experience the best in quality and service.

Packing and Shipping:

Frame System Scaffolding Packaging and Shipping

Thank you for choosing Frame System Scaffolding! Our product is carefully packaged and shipped to ensure its safe arrival at your location. Below are the details of our packaging and shipping process.

Packaging

Our Frame System Scaffolding is packaged in sturdy and durable cardboard boxes to protect it from any damage during transportation. Each component is individually wrapped and placed in the box to prevent scratching or bending. We also use bubble wrap and other protective materials to further secure the product.

Shipping

We offer both domestic and international shipping options for our customers. For domestic shipping, we use trusted and reliable carriers to ensure timely delivery of your order. For international shipping, we work with reputable freight companies to ensure the safe and efficient transportation of our product.

Once your order is shipped, we will provide you with a tracking number so you can monitor the progress of your delivery. We strive to ship all orders within 24 hours of receiving them, and delivery time will vary depending on your location and shipping method.

Additional Information

If you have any specific packaging or shipping requests, please let us know at the time of placing your order. We will do our best to accommodate your needs.

If you receive your order and notice any damage to the packaging or product, please contact us immediately so we can rectify the issue. Thank you once again for choosing Frame System Scaffolding. We hope our product will meet your expectations and make your project a success.
