High Strength Scaffolding Coupler With EN74-1 Standard Scaffolding Pipe Coupler

Our Product Introduction

Basic Information

- Place of Origin: china tianjin
- Brand Name: scaffolding coupler
- Certification: SGS
- Model Number: BM201
- Price: 4.5-8.5
- Packaging Details: In bundles
- Delivery Time: 15-25
- Payment Terms: TT/TC

Product Specification

- Color: Silver
- Material: Steel
- Application: Construction
- Feature: High Strength
- Package: Container
- MOQ: 1000
- Name: Scaffolding Coupler
- Standard: EN74-1
- Highlight: **EN74-1 Standard Scaffolding Coupler**, **EN74-1 Scaffolding Pipe Coupler**

Product Description

Product Description:

Scaffolding Coupler - Product Overview

The Scaffolding Coupler is a vital component in the construction industry, used to connect scaffold tubes and beams together to form a stable and safe working platform. Our Scaffolding Coupler is designed and manufactured to meet the highest standards, making it a reliable and essential tool for any construction project.

Product Specifications

Name: Scaffolding Coupler

Standard: EN74-1

MOQ: 1000 pieces

Color: Silver

Features: High Strength, Durable, Easy Installation, Corrosion Resistance

British-style Scaffold Connectors

Our Scaffolding Coupler is designed in the traditional British style, ensuring compatibility with all types of scaffold systems. This makes it a versatile and cost-effective choice for any construction project.

Scaffold Beam Connectors

In addition to connecting scaffold tubes, our Scaffolding Coupler can also be used to connect scaffold beams. This allows for more flexibility and stability in constructing scaffolding structures.

EN74-1 Standard

Our Scaffolding Coupler meets the EN74-1 standard, ensuring its quality and durability. This standard is recognized and accepted globally, making our product suitable for use in different countries and industries.

High Strength and Durability

The Scaffolding Coupler is made from high-quality materials, giving it exceptional strength and durability. It can withstand heavy loads and harsh weather conditions, making it a reliable and long-lasting choice for scaffolding systems.

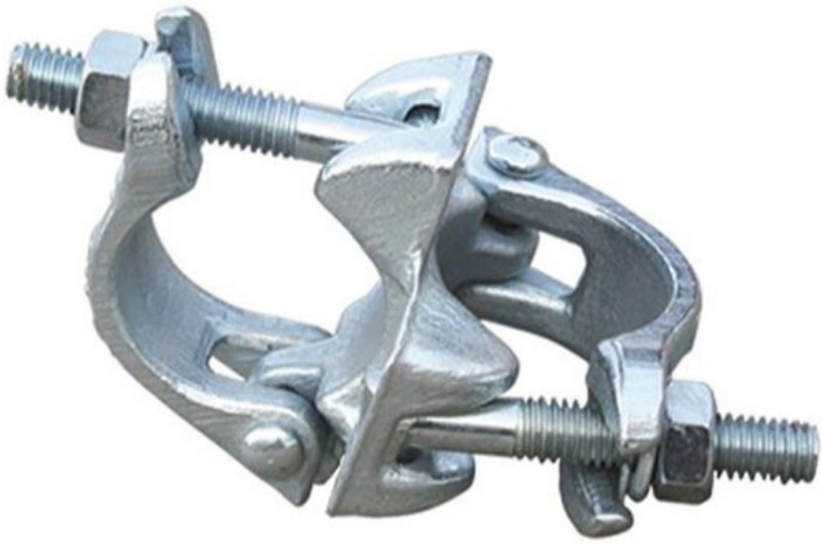
Easy Installation

Our Scaffolding Coupler is designed for easy and quick installation. It can be easily attached to scaffold tubes and beams, saving time and effort during construction. This feature also makes it easy to disassemble and reassemble, making it a practical choice for temporary structures.

Corrosion Resistance

Our Scaffolding Coupler is treated with a corrosion-resistant coating, making it suitable for outdoor use. This ensures that our product remains in excellent condition even after prolonged exposure to harsh weather conditions.

Overall, our Scaffolding Coupler is a reliable, durable, and versatile product that meets all the necessary standards for use in the construction industry. With its high strength, easy installation, and corrosion resistance, it is an essential tool for any scaffolding system.



Technical Parameters:

Product Name	Scaffolding Coupler
Application	Construction
Package	Container

Standard	EN74-1
MOQ	1000
Color	Silver
Surface Treatment	Galvanized
Feature	High Strength
Material	Steel
Key Features	Manual Scaffold Connection Tools, BS EN 74 Scaffold Accessories, Universal Scaffold Clamping Tools

Applications:

Product Application: Scaffolding Coupler
Brand Name: scaffolding coupler
Model Number: BM201
Place of Origin: China Tianjin
Certification: SGS
Price: 4.5-8.5
Packaging Details: In bundles
Delivery Time: 15-25 days
Payment Terms: TT/TC
Material: Steel
Surface Treatment: Galvanized
Feature: High Strength
Application: Construction
Color: Silver
Scaffolding Coupler, also known as Scaffold Clamping System, is an essential component for scaffolding systems used in construction sites. This product is designed to securely connect scaffolding pipes together, providing stability and ensuring safety for workers at elevated heights.
At any construction site, there will be a need for scaffolding to support workers and materials during building, maintenance, and repair processes. Scaffolding Coupler plays a crucial role in this process by providing a strong and reliable connection between scaffolding pipes, forming a scaffolding frame or tower. It allows for easy assembly and disassembly of scaffolding structures, making it a highly efficient and time-saving tool.
The Scaffolding Coupler is made of high-quality galvanized steel, which makes it durable and resistant to corrosion. This material also gives it a high strength, making it capable of supporting heavy loads. The product has also been certified by SGS, ensuring its reliability and quality.
Thanks to its surface treatment of galvanization, the Scaffolding Coupler has a shiny silver color, making it easily identifiable on the construction site. This feature also adds to its aesthetic appeal, making it a preferred choice for many construction projects.
In conclusion, Scaffolding Coupler is an essential product for any construction project, providing a safe and stable working environment for workers. Its high strength, durability, and ease of use make it a popular choice among construction companies. With its reliable and efficient performance, this product has become a must-have in the construction industry.

Customization:

Scaffolding Coupler Customization Service
Brand Name: Scaffolding Coupler
Model Number: BM201
Place of Origin: China, Tianjin
Certification: SGS
Price: 4.5-8.5
Packaging Details: In bundles
Delivery Time: 15-25 days
Payment Terms: TT/TC
Feature: High Strength
Application: Construction
Color: Silver
MOQ: 1000 pieces
Material: Steel
Key words: British Scaffold Fixtures, British Scaffold Tube Clamps, British Scaffold Joint Clamps

Packing and Shipping:

Packaging and Shipping of Scaffolding Coupler
The Scaffolding Coupler is carefully packaged to ensure safe delivery to our customers. Each coupler is first wrapped in bubble wrap to prevent any damage during transportation. Then, the wrapped couplers are placed in a sturdy cardboard box and sealed with packing tape. The box is labeled with the product name, quantity, and any special handling instructions.
For shipping, we use reliable and reputable shipping companies to ensure timely and efficient delivery. The couplers are shipped in bulk quantities to reduce shipping costs for our customers. We also offer options for expedited shipping for urgent orders.
Our packaging and shipping methods are designed to protect the couplers and ensure they arrive in perfect condition. We take great care in handling and transporting our products to meet the highest standards of quality and customer satisfaction.
