# Customized Length Scaffolding Plank with Pre-galvanized Surface Steel

Our Product Introduction

## Basic Information

- Place of Origin: China
- Brand Name: Bythai
- Model Number: BM205
- Minimum Order Quantity: 1000
- Price: 4.5-8.5
- Packaging Details: In bundles
- Delivery Time: 10-15
- Payment Terms: container, shipping

## Product Specification

- Usage: Scaffolding
- Length: Customized
- Surface: Pre-galvanized/hot Dip Galvanized/Spray Plastic
- Packaging: Container
- Place Of Shipment: China
- Material: Steel

## Product Description

### Product Description:

Scaffolding Plank - Product Overview

Scaffolding plank is an essential component in any scaffolding system. It provides a sturdy and safe platform for workers to perform their tasks at different heights. Our scaffolding plank is made of high-quality steel, ensuring durability and reliability on the construction site.
Surface

Our scaffolding plank is available in three different surface finishes to meet various construction needs:
**Pre-galvanized:** The plank is coated with a layer of zinc before being formed. This provides excellent protection against corrosion and rust, making it suitable for outdoor use.

**Hot Dip Galvanized:** The plank is immersed in molten zinc, creating a thicker and more durable coating. This surface finish is ideal for harsh and corrosive environments.

**Spray Plastic:** The plank is coated with a layer of plastic, providing a smooth and non-slip surface. This finish is suitable for indoor use and can also be customized with different colors for easy identification.
Length

Our scaffolding plank is available in customized lengths to fit your specific construction needs. This allows for greater flexibility and efficiency on the job site.
Material

Our scaffolding plank is made of high-quality steel, ensuring strength, durability, and safety in the workplace. The steel plank is designed to withstand heavy loads and provide a stable working platform for workers.
Packaging

Our scaffolding plank is packaged in containers, ensuring safe and efficient transportation to your construction site. The containers are also stackable, saving space and reducing shipping costs.
Usage

Our scaffolding plank is specifically designed for use in scaffolding systems. It is an essential component for construction, renovation, and maintenance projects that require workers to work at different heights.
Our scaffolding plank is available in different types, including:
**Steel Plank with Hook:** This type of plank comes with hooks on both ends, allowing for easy installation and removal from the scaffolding frame.

**Steel Plank with Hook and Spigot:** This type of plank has hooks on both ends, as well as spigots on the sides, providing extra stability and preventing movement between planks.

**Steel Plank with Hook and Ladder:** This type of plank is equipped with hooks on both ends and ladders on the sides, providing easy access to different levels of the scaffolding.

**Steel Plank with Hook and Ladder and Spigot:** This type of plank combines all the features mentioned above, providing the utmost safety and stability for workers.

Our scaffolding plank is designed to meet all safety regulations and standards, ensuring the well-being of workers on the job site. It is also easy to assemble and disassemble, saving time and effort during construction.
Choose our scaffolding plank for your next construction project and experience the highest level of safety, efficiency, and reliability. Contact us now to discuss your requirements and get a customized quote.

### Technical Parameters:

| Key Features | Technical Parameters |
|---|---|
| Material | Steel |
| Usage | Scaffolding |
| Packaging | Container |
| Place of Shipment | China |
| Surface | Pre-galvanized/hot Dip Galvanized/Spray Plastic |
| Length | Customized |
| Key Words | Galvanized Steel Plank Catwalk, Steel Frame for Decking Plank, Galvanized Steel Planks for Walkway |

## Applications:

The Scaffolding Plank - Bythai BM205 is a high-quality steel plank specifically designed for construction scaffolding. It is made from durable steel material, providing excellent support and stability for workers on elevated platforms. This product is perfect for various construction applications, such as building skyscrapers, bridges, and other large structures.
Application and Scenes

The Scaffolding Plank - Bythai BM205 is suitable for a wide range of construction projects. It can be used in both indoor and outdoor settings, making it a versatile choice for builders and contractors. Some of the common applications and scenes for this product include:

Building construction - The steel plank ringlock provides a safe and stable working platform for workers to perform tasks such as bricklaying, painting, and plastering.
Bridge construction - The steel plank with hooks steel catwalk scaffold allows workers to easily access and work on elevated areas during the construction of bridges.
Roofing - The steel plank with hook can be used as a temporary walkway for workers to safely access and work on roofs.
Shipbuilding - The scaffolding plank is ideal for use in shipyards, providing a strong and stable platform for workers to perform various tasks on ships.
Industrial maintenance - The steel scaffolding plank can be used for maintenance work in industrial facilities, providing a safe and reliable platform for workers.
Product Features
The Scaffolding Plank - Bythai BM205 stands out as a top choice for construction scaffolding due to its exceptional features:
High-quality steel material - This product is made from high-grade steel, ensuring durability and longevity.
Easy installation - The steel plank can be easily installed and secured on scaffolding frames, saving time and labor costs.
Customizable length - The length of the steel plank can be customized to fit specific construction needs and requirements.
Safety and stability - The steel plank provides a solid and stable platform for workers, ensuring their safety while working at heights.
Cost-effective - The Scaffolding Plank - Bythai BM205 offers excellent value for money, providing a durable and reliable solution at an affordable price.
Why Choose Scaffolding Plank - Bythai BM205?
The Scaffolding Plank - Bythai BM205 is the top choice for your construction scaffolding needs because:
It is made from high-quality steel, ensuring safety, stability, and durability.
It is easy to install and customize according to your needs.
It is cost-effective, providing excellent value for your money.
It is suitable for a wide range of construction applications and scenes.
It is manufactured by Bythai, a trusted brand in the construction industry.
Order Now
If you're looking for a reliable and durable scaffolding plank, then the Scaffolding Plank - Bythai BM205 is the perfect choice for you. Contact us now to place your order and experience the safety, stability, and durability of Bythai BM205.

## Customization:

Bythai Scaffolding Plank - BM205
Customization Service
Product Features:
High quality steel plank for scaffolding
Also known as steel staging plank or scaffolding steel walking planks hook
Customized length according to customer's requirements
Durable and long-lasting
High load capacity for heavy construction materials
Easy installation and disassembly
Rust-resistant for outdoor use
Safe and reliable for workers to walk on during construction

## Packing and Shipping:

Scaffolding Plank Packaging and Shipping
When it comes to packaging and shipping our Scaffolding Plank, we take great care to ensure that the product arrives at its destination in perfect condition. Here is an overview of our packaging and shipping process:
**Secure Packaging:** Each Scaffolding Plank is carefully packaged in protective materials to prevent any damage during transportation.
**Palletized Shipment:** For larger orders, our Scaffolding Planks are palletized and shrink-wrapped to guarantee safe and secure transportation.
**Delivery Options:** We offer various delivery options to meet your specific needs, including ground shipping, air freight, and sea freight.
**Customs Clearance:** For international shipments, we handle all necessary customs clearance procedures to ensure a smooth and hassle-free delivery.
**Tracking Information:** Once your order has been shipped, we provide you with tracking information so you can monitor the progress of your delivery.
At Scaffolding Co., we prioritize the safety and timely delivery of our products. You can trust us to provide reliable packaging and shipping for all your Scaffolding Plank needs. Contact us today to learn more about our services and to place an order.
