EN74-1 Standard Silver Scaffolding Coupler for Customer Requirements

Our Product Introduction

Basic Information

- Place of Origin: china tianjin
- Brand Name: scaffolding coupler
- Certification: SGS
- Model Number: BM201
- Minimum Order Quantity: 1000
- Price: 4.5-8.5
- Packaging Details: CONTAINER
- Delivery Time: 15-25
- Payment Terms: TT/TC

Product Specification

- Surface Treatment: Galvanized
- Standard: EN74-1
- Color: Silver
- Feature: High Strength
- Material: Steel
- MOQ: 1000
- Application: Construction
- Package: Container
- Highlight: **Galvanized Silver Scaffolding Coupler**, **SGS Silver Scaffolding Coupler**, **EN74-1 Standard Scaffold Swivel Coupler**

Product Description

Product Description:

Scaffolding Coupler - The Ultimate Solution for Your Construction Needs

The Scaffolding Coupler is a revolutionary manual scaffold connection tool that is designed to make your construction projects more efficient and reliable. Made from high-quality steel and coated with a galvanized surface treatment, this coupler is durable and versatile, making it the perfect solution for all your scaffolding needs.

Application

The Scaffolding Coupler is specifically designed for use in the construction industry. It is the perfect tool for connecting scaffolding pipes and providing a secure and stable platform for workers to carry out their tasks.

Material

Made from top-grade steel, the Scaffolding Coupler is built to withstand even the most demanding construction projects. Its sturdy construction ensures that it can handle heavy loads and provide a safe working environment for your workers.

Surface Treatment

To ensure maximum durability and longevity, the Scaffolding Coupler is coated with a galvanized surface treatment. This treatment not only enhances its resistance to corrosion and rust but also gives it a sleek and professional appearance.

Name

The name says it all - Scaffolding Coupler. This product is the perfect coupling solution for scaffolding pipes, providing a strong and reliable connection that ensures the safety and stability of your scaffold structure.

MOQ

We offer a minimum order quantity of 1000 for our Scaffolding Coupler, making it easily accessible for both small and large-scale construction projects.

Key Features

Durable: Made from high-quality steel, the Scaffolding Coupler is built to last and can withstand heavy loads and rough handling.

High-Quality: Our couplers are manufactured with precision and undergo strict quality control measures to ensure they meet the highest standards.

Reliable: With its strong and secure connection, the Scaffolding Coupler provides a stable platform for your workers, ensuring their safety and efficiency.

Efficient: The easy-to-use design of our coupler allows for quick and hassle-free installation, saving you time and effort on your construction projects.

Easy to Install: The Scaffolding Coupler can be easily installed without the need for any specialized tools or equipment.

Versatile: This coupler can be used for various scaffolding applications, making it a versatile and essential tool for any construction project.

Don't compromise on safety and efficiency in your construction projects. Choose the Scaffolding Coupler for a durable, high-quality, and reliable scaffolding connection solution. Contact us now to place your order!
