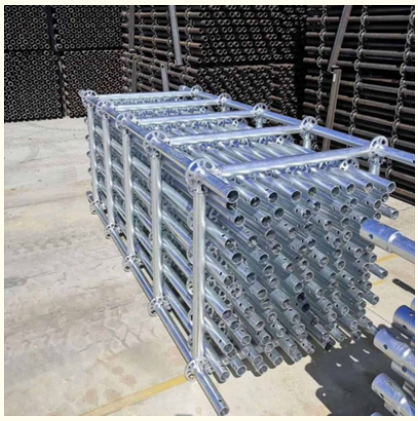
Q235 Steel Ringlock Scaffolding for Customizable Construction

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Bythai
- Certification: SGS
- Model Number: BM202
- Minimum Order Quantity: 1000
- Price: 4.5-8.5
- Packaging Details: container
- Delivery Time: 10-15
- Payment Terms: TT/TC



Product Specification

- Shipping Origin: China
- Warranty: 2 Years
- Product Name: Ringlock System
- Material: Q235 Steel
- Surface Treatment: Hot-dip Galvanized
- Application Scenarios: Architecture
- Highlight: **Q235 Ringlock Scaffolding**, **Customizable Construction Ringlock Scaffolding** , **Customizable Construction Steel Ringlock Scaffolding**

Product Description

Product Description:

Ringlock System Scaffolding

The Ringlock System Scaffolding is a highly versatile and efficient scaffolding system designed for construction and maintenance projects. Made of Q235 steel and hot-dip galvanized for maximum durability, this scaffolding system is suitable for both indoor and outdoor use.

The Ringlock System Scaffolding is known for its ease of use and high load-bearing capacity. It is widely used in various industries, such as construction, oil and gas, shipbuilding, and more. With its superior quality and reliability, this scaffolding system has become a popular choice among contractors and construction companies worldwide.

Product Features

Surface Treatment: Hot-dip galvanized for maximum corrosion resistance and long-lasting performance.

Material: Made of Q235 steel, known for its high strength and durability.

Warranty: Comes with a 2-year warranty, ensuring peace of mind for our customers.

Scaffold Coupler System: The Ringlock System Scaffolding uses a unique coupler system that allows for fast and easy assembly without the need for extra tools.

Ringlock Scaffold Connector: The connectors are designed to fit perfectly with the scaffolding parts, providing a secure and stable connection.

Layher Scaffolding: Our scaffolding is compatible with Layher scaffolding, allowing for easy integration with existing scaffolding systems.

Product Specifications

Product Name	Ringlock System
Shipping Origin	China
Material	Q235 Steel
Surface Treatment	Hot-dip Galvanized
Warranty	2 Years

With its superior quality, ease of use, and high load-bearing capacity, the Ringlock System Scaffolding is the perfect solution for your construction and maintenance needs. Contact us today to learn more about our product and how it can benefit your projects.

Features:

Product Name: Ringlock System Scaffolding
Application scenarios: Architecture
Material: Q235 Steel
Warranty: 2 Years
Surface Treatment: Hot-dip Galvanized
Shipping origin: China
Scaffolding Ring Lock
Steel Ringlock Scaffolding
Secure Scaffolding Joints
Durable
Easy to Assemble
Versatile
Corrosion-resistant

Technical Parameters:

Product Name	Ringlock System
Warranty	2 Years
Shipping Origin	China
Material	Q235 Steel
Surface Treatment	Hot-dip Galvanized
Application Scenarios	Architecture

Ringlock Scaffolding	Corrosion-Resistant Ringlock
Corrosion-Resistant Ringlock System	Ringlock Scaffold System
Material	Q235 Steel
Surface Treatment	Hot-dip Galvanized
Application Scenarios	Architecture
Warranty	2 Years

Applications:

Ringlock System Scaffolding - A Revolutionary Solution for the Construction Industry

Brand Name: Bythai

Model Number: BM202

Place of Origin: China

Certification: SGS

Price: $4.5-8.5

Packaging Details: In bundles

Delivery Time: 10-15 Days

Payment Terms: TT/TC

The Ringlock System Scaffolding, a product offered by Bythai, is a versatile and reliable solution for various construction projects. Made of high-quality Q235 steel and hot-dip galvanized for maximum strength and durability, this scaffolding system is designed to meet the rigorous demands of the construction industry.

Application Scenarios

This product is widely used in architecture, building construction, infrastructure projects, bridge construction, industrial maintenance, formwork support, temporary structures, and many other applications.

Product Name: Ringlock System

Material: Q235 Steel

Shipping Origin: China

Surface Treatment: Hot-dip Galvanized

Key Features

High Load Capacity: The Ringlock System scaffolding is designed to withstand heavy loads, making it ideal for use in construction projects of all sizes.

Easy Installation: The unique ringlock rosette design allows for easy and quick installation, saving time and labor costs.

Flexible Configuration: The modular design of this system allows for flexible and versatile configuration to suit different project requirements.

Durable and Stable: Made of high-quality materials and hot-dip galvanized, this scaffolding system is built to withstand harsh weather conditions and provide a stable working platform for construction workers.

Safe and Cost-effective: With its sturdy design and high load capacity, the Ringlock System ensures the safety of workers and provides a cost-effective solution for construction companies.

Advantages

Time-saving: The easy installation and flexible configuration of this system allows for faster construction, reducing project time and costs.

Labor-saving: The simple and efficient design of the Ringlock System requires fewer workers for installation and dismantling, saving labor costs.

Multi-functional: This scaffolding system can be used for various applications, including facade scaffolding, shoring, support, and more.

Versatile: The modular design of the Ringlock System allows for easy customization to meet the specific requirements of different construction projects.

Cost-effective: With its durable and stable design, this scaffolding system provides a cost-effective solution for long-term use.

Why Choose Bythai Ringlock System Scaffolding?

High-quality materials and strict quality control ensure the safety and reliability of our products.

Competitive pricing and flexible payment terms make our products more accessible to the market.

Efficient logistics and on-time delivery ensure that projects stay on schedule.

Professional technical support and after-sales service provide a worry-free experience for our customers.

Scaffolding rental options are available for projects with short-term needs.

In conclusion, the Ringlock System Scaffolding by Bythai is a game-changing product in the construction industry. With its high load capacity, easy installation, flexible configuration, durability, stability, safety, and cost-effectiveness, this scaffolding system is the go-to choice for construction companies looking for a reliable and efficient solution. Choose Bythai Ringlock System Scaffolding for your next construction project and experience the difference it can make.

Customization:

Bythai Ringlock System Scaffolding - Customized Services

Brand Name: Bythai

Model Number: BM202

Place of Origin: China

Certification: SGS

Price: 4.5-8.5

Packaging Details: In bundles

Delivery Time: 10-15 days

Payment Terms: TT/TC

Product Name: Ringlock System

Surface Treatment: Hot-dip Galvanized

Shipping Origin: China

Application Scenarios: Architecture

Warranty: 2 years

Bythai Ringlock System Scaffolding offers customized services for our customers. Our hot dip galvanized ringlock scaffold, known for its high load-bearing capacity and durability, is the ideal choice for efficient construction in various application scenarios, especially in architecture.
We understand that every project has specific requirements, which is why we provide customized sizes for our ring lock type scaffold. This allows for more flexibility and adaptability to different construction needs.
Our hot-dip galvanized surface treatment ensures the longevity of the scaffold, protecting it from rust and corrosion. This also makes it suitable for outdoor use in various weather conditions.
With its versatile design and sturdy materials, Bythai Ringlock System Scaffolding is a reliable and cost-effective solution for your construction needs. Our experienced team will work closely with you to provide efficient and tailored services, ensuring the success of your project.
Trust in Bythai for all your scaffolding needs. Contact us now to learn more about our customized services and how we can assist you in your next construction project.
