

6' Multifunctional Mobile Scaffolding Rolling Steel Multi Function Tower 6ft Scaffold

Our Product Introduction

for more products please visit us on bythaiscaffold.com

Basic Information

- Place of Origin: China
- Brand Name: bythai
- Certification: SGS ISO
- Model Number: BT210
- Minimum Order Quantity: 1000
- Price: 18.5-85.5
- Packaging Details: container
- Delivery Time: 10-15
- Payment Terms: L/C, T/T

Product Specification

- Features: Multi-functional, Easy To Assemble And Dismantle, High Load Capacity, Corrosion Resistance
- Type: Scaffolding
- Application: Construction
- Advantages: Versatile, Time-saving, Cost-effective
- Surface Treatment: Hot-dip Galvanized
- Package: Steel Pallet Or Customized
- Material: Steel
- Load Capacity: 1000kg
- Usage: Supporting And Accessing Work Platforms
- Warranty: 1 Year
- Highlight: **6ft Multifunctional Mobile Scaffolding, Rolling Steel Multifunctional Mobile Scaffolding, Multi Function Tower 6ft**

Product Description

Multifunctional design: Tianjin multifunctional scaffolding racks stand out for their flexible and changeable design. Not only can it be used for building construction, decoration and maintenance, but it can also adapt to the needs of various scenarios. From simple interior decoration to large-scale construction projects, we can easily handle it.

Adjustable height: Equipped with adjustable height function, making it more adaptable to the needs of different projects. Whether working at high altitudes or in low spaces, the height can be easily adjusted according to needs, improving construction efficiency and safety.

High-quality material: Made of high-quality Q235 steel, ensuring the stability and durability of the product. It is not easy to rust, can be used for a long time in various environments, and can withstand the test of time.

Hot-dip galvanizing process: Through hot-dip galvanizing process, the surface coating is uniform and dense, which greatly extends the service life of the product. It has excellent properties such as corrosion resistance and wear resistance, and can adapt to various harsh environments.

Stable structure: The reasonably designed structure ensures the stability and safety of the product, can withstand greater weight and risks, and provides a stable and reliable working platform for construction workers.

Easy to disassemble and assemble: Tianjin multifunctional scaffolding racks adopt a simple and easy-to-understand disassembly and assembly design, which can be quickly disassembled and assembled without complicated tools. Save time and labor costs and improve work efficiency.

Multi-scene application: Whether it is construction sites, road maintenance, bridge construction or interior decoration, Tianjin multi-functional scaffolding racks can play their role. The flexible design makes it an ideal choice for a variety of projects.

Place of Origin	tianjin china
Model Number	BT210
Name	6ft scaffold
Product name	Adjustable Construction Scaffolding
Type	Scaffolding Parts
Material	Q235 Steel
Surface treatment	Hot Dip Galvanized
Usage	Building Project
Advantage	Easy Assembling
Keyword	Scaffolding
