

German Type Scaffolding Double Coupler for Scaffolding System (48.3 X 48.3mm)

Our Product Introduction

for more products please visit us on bythaiscaffold.com

Basic Information

- Place of Origin: china tianjin
- Brand Name: scaffolding coupler
- Certification: SGS ISO
- Model Number: BT205
- Minimum Order Quantity: 1000
- Price: 8.5-15.8
- Packaging Details: In bundles
- Delivery Time: 15-25
- Payment Terms: TT/TC

Product Specification

- Package: Container
- Standard: EN74-1
- Feature: High Strength
- Surface Treatment: Galvanized
- Material: Steel
- MOQ: 1000
- Application: Construction
- Name: Scaffolding Coupler
- Highlight: **German Type Scaffolding Coupler, 48.3mm Scaffolding Coupler, Scaffolding System Double Coupler**

Product Description

Product Description:

The Scaffolding Coupler is an essential component in the construction industry, renowned for its robustness and reliability in securing scaffolding structures. Crafted with precision, this coupler serves as a fundamental tool in the assembly and stability of scaffold systems, ensuring the safety and efficiency of construction operations. With its specialized design, the Scaffolding Coupler is compatible with various scaffolding systems, making it a versatile and indispensable accessory for builders and contractors. Manufactured from high-strength steel, the Scaffolding Coupler exhibits outstanding durability and resistance to the rigorous demands of construction environments. The steel material provides the coupler with the ability to withstand heavy loads, impacts, and environmental factors, thereby ensuring a long service life and consistent performance. The choice of steel as the material for the Scaffolding Coupler guarantees that the structural integrity of scaffolds is maintained at all times, contributing to the overall safety of construction sites.

Technical Parameters:

Attribute	Description
Name	Scaffolding Coupler
Material	Steel
Standard	EN74-1
Surface Treatment	Galvanized
Application	Construction
Feature	High Strength
Package	Container
MOQ	1000
Color	Silver

Packing and Shipping:

Our Scaffolding Coupler is meticulously packaged to ensure its safety and integrity during transit. The wrapped couplers are then securely placed in sturdy, custom-fit boxes which are sealed and reinforced to withstand the rigors of shipping.

For larger orders, these boxes are further organized onto pallets, shrink-wrapped, and strapped to minimize movement and reduce the risk of shipping-related damages. We use reliable carriers to ensure your product arrives on time and in excellent condition, with tracking options available so you can monitor your shipment's progress. Please inspect your delivery upon arrival and report any issues immediately for prompt resolution.
