Scaffolding System Walk Platform Q195 Steel Plank Metal Board For Building

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Bythai
- Certification: SGS,ISO
- Model Number: BT250
- Minimum Order Quantity: 1000
- Price: 15.5-85.5
- Packaging Details: In bundles
- Delivery Time: 10-15
- Payment Terms: L/C, T/T, Western Union, MoneyGram
- Supply Ability: 500000 pcs/year

Product Specification

- Standard: EN12811,BS1139
- Packaging: Bulk, In Tray
- Material: Q195.Q235.Q355B
- Place Of Shipment: China
- Length: Customized
- Surface: Pre-galvanized/hot Dip Galvanized/Spray Plastic
- Thickness(mm): 1.2-1.5
- Application: Building Construction, Walking Or Elevating Frame Scaffolding, Engineering Fix Clamp, For Inside And Outside Construction Building, Offer Walking Platform In Scaffold System
- Width(mm): 210
- Height(mm): 45
- Highlight: **Q195 Steel Plank**, **Building Scaffolding System Walk Platform**,

Our Product Introduction

Product Description

Product Description:

Our Q195 steel plank walk platforms are designed for efficient and secure scaffolding systems in building projects. Made from high-quality Q195 steel, these planks offer excellent durability and stability, ensuring worker safety on-site. The robust construction and precise engineering of these planks make them easy to install and maintain, reducing downtime and increasing productivity. Perfect for various construction applications, our steel plank walk platforms are a cost-effective solution for creating reliable and efficient scaffolding systems. Trust in our quality to enhance the performance of your building projects.

Features:

Product Name: Scaffolding Plank
Usage: Supporting Board for Scaffolding
Weight: Customized
Packaging: Container
Surface: Pre-galvanized/hot Dip Galvanized
Width: Customized

Technical Parameters:

Types	Width(mm)	Height(mm)	Thickness(mm)	Length (mm)	Surface	Material	Standard
210	210	45	1.2	500-4000	Pre-Galvanized HDG	Q195,Q235	BS1139, EN12811
240	240	45	1.2				
250	250	50	1.2				
225	225	38	1.5

Applications:

Bythai BT02 metal plank is a perfect choice for scaffolding applications. It is made with a solid structure, which ensures its high strength and durability. It is available in a variety of widths to meet different requirements. The weight of this metal plank can be customized for different projects. Its steel color provides an attractive look to the construction sites. This scaffold supporting plank is ideal for scaffolding, and it is widely used in the construction industry as a supporting board for scaffolding.

Customization:

Are you looking for a high-quality **Scaffold Supporting Plank**? Look no further than Bythai's **BT02** model. This product is manufactured in **China** with a **pre-galvanized/hot dip galvanized** surface. Made of **steel**, it can be customized in terms of length and thickness according to your needs. It is perfect for **scaffolding**.

Support and Services:

Technical support and service for Scaffolding Plank are available to provide customers with the necessary guidance and assistance. Our experienced team of professionals is available round the clock for any queries and issues related to the product. We offer a range of solutions, from troubleshooting and repair to installation and maintenance, to ensure that our customers get the most out of their purchases. Additionally, our customer service team is always available to answer any questions or concerns.

FAQ:

Q: What types of scaffolding systems do you offer?
A: We offer a variety of scaffolding systems, including ring lock, frame, prop, tube & coupler systems, steel and aluminum planks, and various scaffolding accessories.
Q: How does your quality control process ensure the safety and reliability of your scaffolding products?
A: Our strict quality control process includes thorough inspections, material testing, and adherence to international safety standards to ensure our scaffolding products are safe and reliable.
Q: Can you provide customized scaffolding solutions to meet specific project requirements?
A: Yes, we offer customized scaffolding solutions tailored to meet the unique needs of your project, ensuring optimal performance and safety.
Q: What is the typical lead time for orders, and how do you handle urgent requests?
A: Our standard lead time varies depending on the order size and complexity, but we prioritize urgent requests to ensure timely delivery without compromising quality.
Q: Do you offer support and guidance for scaffolding assembly and installation?
A: Yes, we provide comprehensive support, including detailed assembly instructions and technical assistance to ensure proper installation and safe use of our scaffolding systems.
Q: What are the key advantages of using your aluminum ringlock system?
A: Our aluminum ringlock system offers several advantages, including lightweight design, easy assembly, high load capacity, durability, and corrosion resistance, making it ideal for various construction projects.
Q: How do your prices compare to other scaffolding suppliers?
A: We offer competitive factory prices while maintaining high-quality standards, providing cost-effective solutions that deliver excellent value for your investment.

Q: What certifications and standards do your scaffolding products meet?
A: Our scaffolding products meet international certifications and standards, including OSHA, EN, and ISO, ensuring they comply with the highest safety and quality requirements.
Q: Can you provide references or case studies from past projects?
A: Yes, we can provide references and case studies showcasing our successful projects and satisfied customers to demonstrate our expertise and reliability.
Q: What is the process for placing an order and what payment options do you accept?
A: Placing an order is simple: contact our sales team with your requirements, receive a detailed quote, and finalize the order. We accept various payment options, including TT, letters of credit, and other secure methods.
