

China Factory 7'X19" Aluminum Walking Board With Hook FOB CIF

Our Product Introduction

for more products please visit us on bythaiscaffold.com

Basic Information

- Place of Origin: China
- Brand Name: bythai
- Certification: SGS
- Model Number: BS204
- Minimum Order Quantity: 100
- Price: 4.5-8.5
- Packaging Details: container
- Delivery Time: 10-15
- Payment Terms: TT/TC

Product Specification

- Type: Planks
- Size: Various Sizes Available
- Application: Construction, Maintenance, Repair
- Standard: EN39/BS1139
- Usage: Construction, Maintenance, Repair
- Oem: Available
- Packing: Container
- Material: Aluminium
- Anti-Slip: Yes
- Width: 0.24m
- Surface Treatment: Anodized
- Corrosion Resistance: High
- Surface: Aluminium

Product Description

China Factory Direct: 7"x19" Aluminum Walking Board with Hook

Reach new heights safely and efficiently with our China factory direct, 7"x19" aluminum walking boards with hooks!

These lightweight and robust planks are the perfect solution for construction sites, renovations, and industrial applications. Whether you're a contractor, professional builder, or DIY enthusiast, experience the difference these aluminum walking boards can make on your next project.

Features:

Factory Direct Savings: Get the most out of your budget with significant savings compared to traditional suppliers. Choose between FOB or CIF for your specific needs.

Lightweight Champion: Effortlessly maneuver and assemble these planks thanks to their featherweight aluminum construction.

Built to Last: High-quality aluminum resists rust and corrosion, ensuring long-lasting durability on the job site.

Safety First: Slip-resistant surfaces minimize the risk of falls, prioritizing worker safety.

Perfect Size: The 7-foot length provides ample workspace while maintaining easy handling, and the 19-inch width offers comfortable walking space.

Secure Hook Integration: Integrated hooks allow for secure attachment to scaffolding systems, promoting stability and safety.

High Weight Capacity: Don't be fooled by the weight; these planks boast a strong load capacity to handle even demanding projects.

Cost-Effective: Factory direct pricing and FOB/CIF options allow you to stretch your budget further.

Enhanced Worker Safety: Slip-resistant surface and secure hook integration minimize workplace hazards.

Increased Productivity: Lightweight design allows for faster setup and breakdown times.

Improved Efficiency: Easy handling and maneuverability minimize fatigue and boost workflow.

Long-Term Investment: Durable aluminum construction offers years of reliable use.

Invest in China factory direct, 7"x19" aluminum walking boards with hooks today and experience the difference!

Technical Parameters:

Attribute	Value
Size	Various Sizes Available
Standard	EN12810, AS/NZS 1576, ANSI/SSFI SC100-5/05, BS1139
Packing	Container
Application	Scaffolding System
Origin	China
Features	High Strength, Easy To Assemble, Versatile, Durable, Corrosion Resistant, Lightweight, Cost-effective, Flexible, Safe, Stable, Efficient, Environmentally Friendly, Interchangeable, Adjustable, Multi-functional
Material	Aluminum
Type	planks
OEM	Available
Usage	Construction, Maintenance, Repair
Keyword	Description
Construction safety	Designed to ensure safe and secure construction work
Lightweight plank	Made with lightweight aluminum for easy transportation and assembly
Safety design	Incorporates safety features to prevent accidents and injuries
Convenient transportation	Packed in containers for convenient transportation to different locations
High efficiency	Efficient and time-saving assembly process for increased productivity

Applications:

Aluminum planks- bythai

Product Description

The Aluminum planks, model BS204, is a high-performance scaffolding system designed and manufactured by bythai in China. It is certified by SGS and meets international standards such as EN12810, AS/NZS 1576, ANSI/SSFI SC100-5/05, and BS1139. This versatile system is suitable for various sizes and applications, making it the perfect choice for construction, maintenance, and repair projects.

Key Features

- Strong and durable aluminum material
- Easy installation with minimal tools required
- Efficient and safe for construction workers
- Versatile for various sizes and applications
- Compliant with international standards
- Plank accessories for added convenience

bythai - providing high-quality scaffolding solutions since 2005

Customization:

Features:

Safety Design: Our Aluminum Ringlock System is designed to ensure construction safety and prevent accidents.

High Strength: Made of high-quality aluminum material, our system is strong and can withstand heavy loads.

Easy To Assemble: With a simple and efficient design, our system can be easily assembled and disassembled, saving time and labor costs.

Versatile: Our system can be used for various types of construction projects, making it a versatile choice for contractors.

Durable: The aluminum material used in our system is corrosion-resistant and can withstand harsh weather conditions, making it long-lasting and cost-effective.

Lightweight: Compared to traditional scaffolding systems, our aluminum ringlock system is lightweight, making it easier to transport and install.

Cost-effective: Our system is competitively priced and designed to help contractors save on construction costs.

Flexible: The interchangeable components of our system allow for flexibility in design and can adapt to different construction needs.

Safe: Our Aluminum Ringlock System is designed to meet safety standards and ensure the safety of workers.

Stable: The sturdy design of our system provides stability and support for workers and materials.

Efficient: With its easy assembly and versatile design, our system can improve construction efficiency and productivity.

Environmentally Friendly: Made of recyclable aluminum material, our system is environmentally friendly and sustainable.

Interchangeable: The components of our system can be easily interchanged and used for different purposes, providing flexibility and convenience for contractors.

Adjustable: Our system can be adjusted to fit different construction heights and requirements, providing versatility in design.

Multi-functional: Our Aluminum Ringlock System can be used for various types of construction projects, making it a multi-functional choice for contractors.

Packing and Shipping:

Packaging and Shipping

The Aluminum Ringlock System is packaged and shipped securely and efficiently to ensure the safe arrival of the product to its final destination.

Packaging:

The components of the Aluminum Ringlock System are carefully packed in strong and durable wooden crates or cartons.

Each crate or carton is labeled with the product name, quantity, and any necessary handling instructions.

Special packaging can be arranged upon request.
