

482.6MM Scaffolding Plank Aluminum Construction Building Materials

Our Product Introduction

for more products please visit us on bythaiscaffold.com

Basic Information

- Place of Origin: China
- Brand Name: bythai
- Certification: SGS
- Model Number: BS204
- Minimum Order Quantity: 100
- Price: 4.5-8.5
- Packaging Details: container
- Delivery Time: 10-15
- Payment Terms: TT/TC

Product Specification

- Type: Planks
- Size: Various Sizes Available
- Application: Construction, Maintenance, Repair
- Standard: EN39/BS1139
- Usage: Construction, Maintenance, Repair
- Oem: Available
- Packing: Container
- Material: Aluminium
- Anti-Slip: Yes
- Width: 0.24m
- Surface Treatment: Anodized
- Corrosion Resistance: High
- Surface: Aluminium

Product Description

482.6mm Aluminum Scaffolding Plank: The Lightweight and Sturdy Choice for Construction

Elevate your construction projects with our secure and dependable 482.6mm (19 inch) aluminum scaffolding planks!

These high-quality planks, crafted from durable aluminum, offer the perfect blend of lightweight maneuverability and exceptional weight capacity. Whether you're a contractor, professional builder, or DIY enthusiast, these aluminum planks are a valuable addition to your scaffolding system.

Features:

Lightweight Champion: Effortlessly transport and assemble these planks thanks to their featherweight aluminum construction.

Superior Strength: Don't be fooled by the weight; these planks boast a high weight capacity to handle demanding construction materials.

Built to Last: High-grade aluminum resists rust and corrosion, ensuring long-lasting performance on the jobsite.

Safety First: Slip-resistant surfaces minimize the risk of falls, prioritizing worker safety.

Universal Compatibility: The standard 482.6mm width ensures seamless integration with most major scaffolding systems.

Multiple Length Options (Optional): Choose from a variety of lengths to suit your specific needs and project layout.

Enhanced Worker Safety: Slip-resistant surface minimizes workplace hazards.

Increased Productivity: Lightweight design allows for faster setup and breakdown times.

Improved Efficiency: Easy handling and maneuverability minimize fatigue and boost workflow.

Reduced Transportation Costs: Lightweight aluminum construction lowers transportation costs between project sites.

Long-Term Investment: Durable aluminum construction offers years of reliable use.

Invest in 482.6mm aluminum scaffolding planks today and experience the difference!

Technical Parameters:

| Attribute | Value |
|---------------------------|---|
| Size | Various Sizes Available |
| Standard | EN12810, AS/NZS 1576, ANSI/SSFI SC100-5/05, BS1139 |
| Packing | Container |
| Application | Scaffolding System |
| Origin | China |
| Features | High Strength, Easy To Assemble, Versatile, Durable, Corrosion Resistant, Lightweight, Cost-effective, Flexible, Safe, Stable, Efficient, Environmentally Friendly, Interchangeable, Adjustable, Multi-functional |
| Material | Aluminum |
| Type | planks |
| OEM | Available |
| Usage | Construction, Maintenance, Repair |
| Keyword | Description |
| Construction safety | Designed to ensure safe and secure construction work |
| Lightweight plank | Made with lightweight aluminum for easy transportation and assembly |
| Safety design | Incorporates safety features to prevent accidents and injuries |
| Convenient transportation | Packed in containers for convenient transportation to different locations |
| High efficiency | Efficient and time-saving assembly process for increased productivity |

Applications:

Aluminum planks- bythai

Product Description

The Aluminum planks, model BS204, is a high-performance scaffolding system designed and manufactured by bythai in China. It is certified by SGS and meets international standards such as EN12810, AS/NZS 1576, ANSI/SSFI SC100-5/05, and BS1139. This versatile system is suitable for various sizes and applications, making it the perfect choice for construction, maintenance, and repair projects.

Key Features

- Strong and durable aluminum material
 - Easy installation with minimal tools required
 - Efficient and safe for construction workers
 - Versatile for various sizes and applications
 - Compliant with international standards
 - Plank accessories for added convenience

bythai - providing high-quality scaffolding solutions since 2005

Customization:

Features:

Safety Design: Our Aluminum Ringlock System is designed to ensure construction safety and prevent accidents.

High Strength: Made of high-quality aluminum material, our system is strong and can withstand heavy loads.

Easy To Assemble: With a simple and efficient design, our system can be easily assembled and disassembled, saving time and labor costs.

Versatile: Our system can be used for various types of construction projects, making it a versatile choice for contractors.

Durable: The aluminum material used in our system is corrosion-resistant and can withstand harsh weather conditions, making it long-lasting and cost-effective.

Lightweight: Compared to traditional scaffolding systems, our aluminum ringlock system is lightweight, making it easier to transport and install.

Cost-effective: Our system is competitively priced and designed to help contractors save on construction costs.

Flexible: The interchangeable components of our system allow for flexibility in design and can adapt to different construction needs.

Safe: Our Aluminum Ringlock System is designed to meet safety standards and ensure the safety of workers.

Stable: The sturdy design of our system provides stability and support for workers and materials.

Efficient: With its easy assembly and versatile design, our system can improve construction efficiency and productivity.

Environmentally Friendly: Made of recyclable aluminum material, our system is environmentally friendly and sustainable.

Interchangeable: The components of our system can be easily interchanged and used for different purposes, providing flexibility and convenience for contractors.

Adjustable: Our system can be adjusted to fit different construction heights and requirements, providing versatility in design.

Multi-functional: Our Aluminum Ringlock System can be used for various types of construction projects, making it a multi-functional choice for contractors.

Packing and Shipping:

Packaging and Shipping

The Aluminum Ringlock System is packaged and shipped securely and efficiently to ensure the safe arrival of the product to its final destination.

Packaging:

The components of the Aluminum Ringlock System are carefully packed in strong and durable wooden crates or cartons.

Each crate or carton is labeled with the product name, quantity, and any necessary handling instructions.

Special packaging can be arranged upon request.
