

Quick and Easy Assembly Q235 Steel Rosette Ringlock Scaffolding Ledger for Construction

Our Product Introduction

for more products please visit us on bythaiscaffold.com

Basic Information

- Place of Origin: China
- Brand Name: Bythai
- Certification: SGS
- Model Number: BS1703
- Delivery Time: 10-15 working Days
- Payment Terms: T/T

Product Specification

- Features: High Strength, Durable
- Flexibility: Easy To Adjust And Reposition
- Vertical Load Capacity: $\geq 45\text{KN}$
- Ledger Length: 0.73m-3.07m
- Horizontal Adjustment: $\leq \pm 3^\circ$
- Ring Thickness: 10mm
- Joints: Double-locking
- Ledger Spacing: 0.5m
- Advantages: High Strength, Easy Assembly, Versatile,
- Materials: Q195, Q235, Q355B
- Warranty: 2 Years
- Max Height: $\leq 30\text{m}$

Product Description

Product Description

Low-Maintenance Design: The weather-resistant materials and minimal components minimize the need for frequent upkeep, saving you time and resources on your projects.

SGS Tests: This ledger adheres to rigorous safety standards as certified by SGS, a world-leading inspection and certification body.

Durable Steel Construction: Choose high-strength Q355B or economical Q235 steel for exceptional strength and weight capacity to handle demanding construction loads.

Seamless Ringlock Integration: Designed for a perfect fit with most ringlock scaffolding systems utilizing a 48.3mm diameter standard.

User-Friendly Design: If applicable, mention features like pre-drilled holes or a user-friendly locking mechanism for ease of assembly.

Multiple Lengths: 0.73-3.07M to cater to diverse project needs.

Reduced Maintenance Costs: The low-maintenance design minimizes the need for painting or other protective treatments, saving you money in the long run.

Enhanced Worker Safety: SGS certification guarantees the ledger meets safety standards, prioritizing worker well-being on the jobsite.

Increased Project Efficiency: The user-friendly design simplifies installation and dismantling, streamlining the scaffolding setup process.

Long-Lasting Performance: Durable steel construction ensures reliable use for years, minimizing replacement needs.

Material Versatility: Choose the steel grade (Q355B or Q235) that best suits your project's requirements for strength and budget.

Specification:

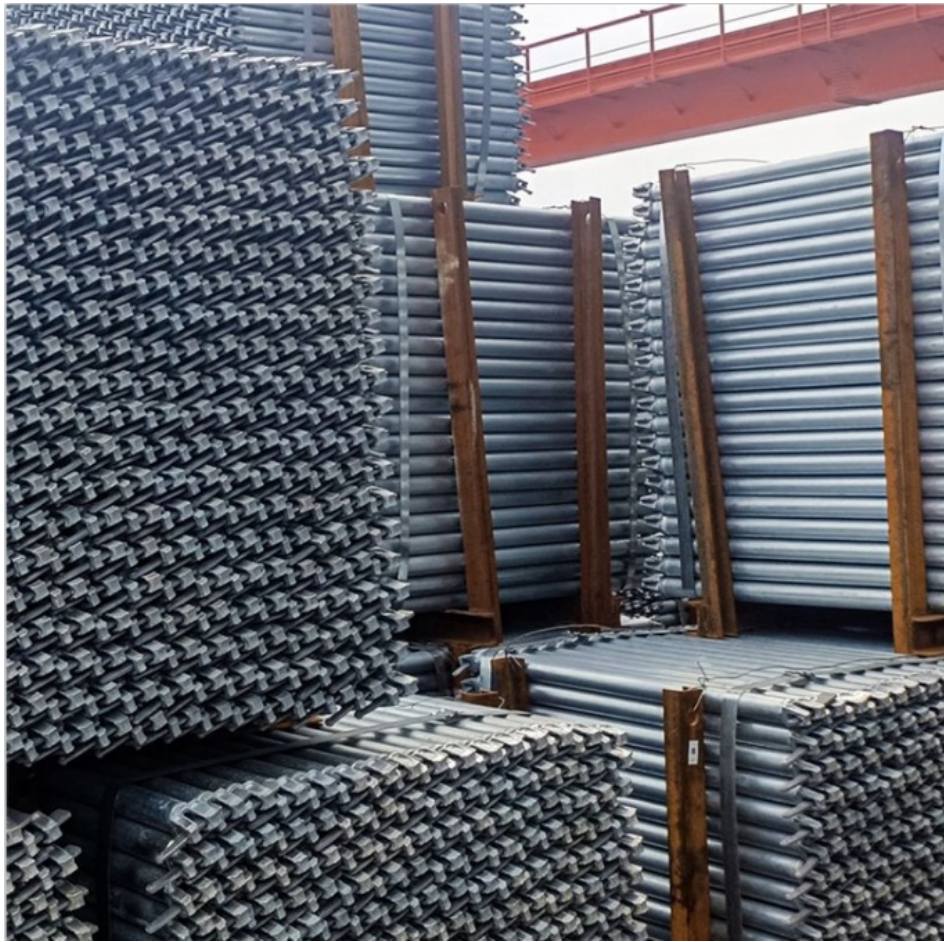

| Specification | Thickness(mm) | Length(mm) | surface | Weight(kg) |
|---------------|---------------|------------|---------|------------|
| M48 | 3.0 | 600 | HDG | 2.35 |
| M48 | 3.0 | 900 | HDG | 3.23 |
| M48 | 3.0 | 1219 | HDG | 4.17 |
| M48 | 3.0 | 1800 | HDG | 5.88 |
| M48 | 3.0 | 1829 | HDG | 5.95 |
| M48 | 3.0 | 2000 | DHG | 6.45 |
| M48 | 3.0 | 2500 | HDG | 7.88 |

Why Choose Us:

When choosing Bythai Scaffolding for your scaffolding needs, you benefit from over a decade of industry experience and specialized knowledge that streamlines communication and ensures efficient project execution. We offer customizable solutions tailored to meet your exact specifications, backed by our strict adherence to international, national, and local safety standards. Our commitment to safety is unwavering, guaranteeing compliance with all regulations for every scaffolding operation. Enjoy the advantage of factory-direct pricing with no additional service fees, providing cost-effective solutions without compromising on quality. Our dedication to superior customer service means you receive attentive support throughout your project, ensuring a seamless experience from start to finish.

FAQ:

Q: What types of scaffolding systems do you offer?

A: We offer a variety of scaffolding systems, including ring lock, frame, prop, tube & coupler systems, steel and aluminum planks, and various scaffolding accessories.

Q: How does your quality control process ensure the safety and reliability of your scaffolding products?

A: Our strict quality control process includes thorough inspections, material testing, and adherence to international safety standards to ensure our scaffolding products are safe and reliable.

Q: Can you provide customized scaffolding solutions to meet specific project requirements?

A: Yes, we offer customized scaffolding solutions tailored to meet the unique needs of your project, ensuring optimal performance and safety.

Q: What is the typical lead time for orders, and how do you handle urgent requests?

A: Our standard lead time varies depending on the order size and complexity, but we prioritize urgent requests to ensure timely delivery without compromising quality.

Q: Do you offer support and guidance for scaffolding assembly and installation?

A: Yes, we provide comprehensive support, including detailed assembly instructions and technical assistance to ensure proper installation and safe use of our scaffolding systems.

Q: What are the key advantages of using your aluminum ringlock system?

A: Our aluminum ringlock system offers several advantages, including lightweight design, easy assembly, high load capacity, durability, and corrosion resistance, making it ideal for various construction projects.

Q: How do your prices compare to other scaffolding suppliers?

A: We offer competitive factory prices while maintaining high-quality standards, providing cost-effective solutions that deliver excellent value for your investment.

Q: What certifications and standards do your scaffolding products meet?

A: Our scaffolding products meet international certifications and standards, including OSHA, EN, and ISO, ensuring they comply with the highest safety and quality requirements.

Q: Can you provide references or case studies from past projects?

A: Yes, we can provide references and case studies showcasing our successful projects and satisfied customers to demonstrate our expertise and reliability.

Q: What is the process for placing an order and what payment options do you accept?

A: Placing an order is simple: contact our sales team with your requirements, receive a detailed quote, and finalize the order. We accept various payment options, including TT, letters of credit, and other secure methods.

Q: What safety precautions should be taken when using your scaffolding?

A: Safety precautions include proper assembly, regular inspections, and adherence to safety guidelines and regulations.
