W-Style Frame Scaffolding 5' X 6'7" Walkthru Set Orange Powder Coated Q235 Steel

Basic Information

BY THAI

- Place of Origin:
- Brand Name:
- Certification: SGS
- Model Number: **BT04** • Minimum Order 1000pcs
- Quantity:
- Price: 18.9-28.9
- Packaging Details: Bundle
- Delivery Time: 15-30 Working Days
- Payment Terms: L/C, T/T
- Supply Ability: 5000t/Month

Product Specification

Features:	Easy To Assemble And Disassemble	
Stability:	High	
Surface Treatment:	Powder Coating	
Safety:	High	
Durability:	Long-lasting And Sturdy	
Weight:	Lightweight	
Load Capacity:	1000kg	
Material:	Steel	
• Size:	Various Sizes Available	
Component:	Frame, Joint Pin, Base Plate, Screw Jack, Etc.	
Easy Installation:	Yes	
• Usage:	Indoor/Outdoor	

Our Product Introduction

Product Description:

The Walk Through Style Frame Scaffolding, constructed from Q235 steel, ensures reliable support and durability. The orange powdercoated finish adds a layer of protection against corrosion and enhances visibility on-site. This scaffolding system allows for easy movement through the structure, making it ideal for high-traffic construction areas. Suitable for both commercial and industrial use, the Walk Through style scaffolding is perfect for projects requiring frequent access and mobility. Its robust design guarantees stability and safety, improving overall site efficiency.

Features:

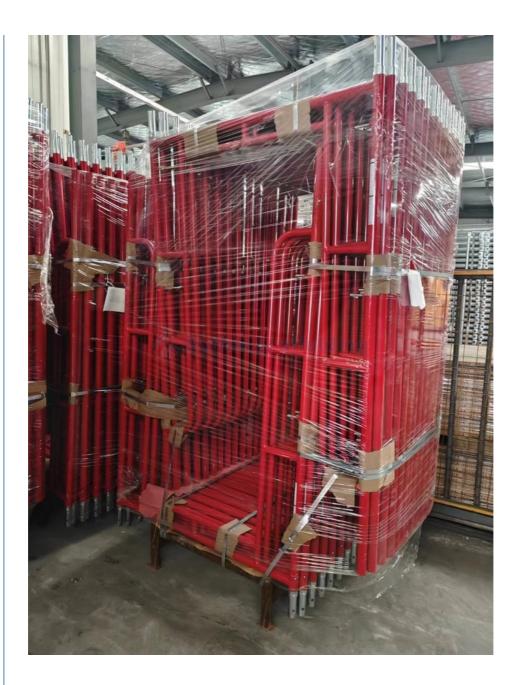

Product Name: Frame System Scaffolding Surface Treatment: Powder Coating Reusability: Yes Safety: High Flexibility: High Color: Steel, Painted Color Ladder Frame: Yes, for Frame System Structuring

Technical Parameters:

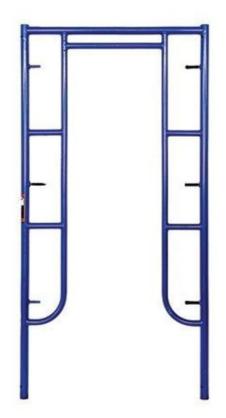

name	Size(W*H)	Materials	surface
Walk-Through Frame	4'*5'7"(1219*1700mm)		
	5'*6'4"(1524*1930mm)		
	5'*4'(1524*1219mm)	Q195 /Q235/Q355B	Powder Coated
	5'*6'4"(1524*1930mm)		
	5'*6'7"(1524*2007mm)		

Applications:

Bythai BT04 Frame System Scaffolding

Bythai BT04 Frame System Scaffolding is a perfect combination of h frame and ladder frame structures that offer an efficient and costeffective solution for construction projects. It features a high load-bearing capacity, high durability, excellent safety, and reusability. In addition, it is highly cost-effective, making it the perfect choice for applications such as scaffolding, formworks, and temporary structures. These features make Bythai BT04 Frame System Scaffolding the ideal choice for any construction project, as it ensures that the job is done efficiently, safely, and with minimal cost. The high load capacity, durability, and safety of the frame system make it ideal for any kind of scaffolding, formwork, or temporary structure, while the reusability ensures that the product can be used for multiple projects. Bythai BT04 Frame System Scaffolding is the ideal choice for any construction project due to its high load capacity, durability, safety, reusability, and cost-effectiveness. With this product, you can be sure that your construction project will be completed efficiently, safely, and cost-effectively.

Customization:

Bythai BT04 Scaffold Mobile Frame System

This scaffold mobile frame system is made from high-quality materials, offering you superior durability and stability. It is lightweight, making it easy to move and transport. It is also cost-effective and can be customized to fit your needs. The Bythai BT04 Scaffold System is an excellent walk-through scaffold system that provides maximum safety and efficiency.

Support and Services:

We provide technical support and services for Frame System Scaffolding. Our technical support team has a range of experts who are available to answer any questions you may have about the product. We also provide ongoing maintenance and monitoring services to ensure the system is running optimally. Our team is trained in the latest technologies and can provide custom solutions to any issues you may have. We strive to provide the best customer service and support to our customers so that they can have the best experience with our product.
